- **Sisters Of The Soul!** -

My sister's garden I will keep to ensure all the world will have food to eat. My sister's heart I will hold and together we will build an empire of gold. My sister's dreams we will share ... and together in peace complete what the master has planned.

My sister is the mirror image of me ... I will groom her perfectly for all the world to admire ... her smile beaming so heavenly! Cultivating all the virtues we each seek ... **SPIRITUALITY ... SELF LOVE ... A WHOLE & HEALTHY FAMILY!** Yes ... I will help my sister sock and roll ... watch her stuff cause she's got soul!

So my sister please take care and always remember I've got your back ... cause we are "Sisters" ...

"Sisters Of The Soul!"

Inside Right Text:

" Sisterly love ... means giving you advice ... means a hug or a good talking when it's needed to change the destination of your life.

It is a bond rooted from honesty and a trust we share ... a friendship that will always be there. Hands extended as we walk ... celebrating the bond and joy of sisterhood!"
